

## Safety TechnoShield® Type TSPV U-PVC

### Engineering Specification

- Material: PVC coated polyester fabric. Weight 650g/m<sup>2</sup>
- Attachments: loop and hook strips sewn on opposite ends of shield for ease of installation
- Closures: all components of shield are sewn together using e-PTFE
- Drawcords: Ø 3mm, 100% pure polypropylene cord
- Shields are chemical resistant, UV resistant
- Tensile strength: 250 DaN/5cm (DIN 53354)
- Tear trap resistance: 30 DaN (DIN 53363)
- Operating Temp: -30°C / +70°C
- Light resistance: level 7/8 (DIN 53388)

Body Materials:

PVC
